Biography

My research interests lie in emotion regulation, particularly in investigating its association with interoception and personality traits. I am also interested in investigating the mechanistic underpinnings of psychotic and mood disorders, as well as the role of parental passive-aggression on children's externalizing and internalizing behaviours.

Research Experience

Clinical Brain Lab

Nanyang Technological University

RESEARCH ASSISTANT

10-2021, Present

- Develop and conduct online cognitive behavioural tasks and surveys (using jsPsych etc.)
- Perform EEG, physiological and behavioural data collection, preprocessing and data analysis
- Coordinate data collection and cognitive training sessions.
- Assist in the preparation and writing of progress reports, scientific presentations, manuscripts, abstracts and publications
- Manage and maintain project records.
- Coordinate project meetings and facilitate communication among project personnel
- Develop and maintain project operational procedures, training materials and documents
- Train and mentor other research assistants and student assistants

ABC Lab

Singapore Management University

RESEARCH ASSISTANT

05-2021, 10-2021

- Recruit subjects on and off campus
- Develop and conduct surveys and cognitive behavioural tasks
- Summarize research findings and preprocess data
- Assisting in the preparation and writing of progress reports, scientific presentations, abstracts, manuscripts and publications
- Train and mentor other research assistants and student assistants

Clinical/Teaching Experience

Clinical Brain Lab

Nanyang Technological University

RESEARCH ASSISTANT

08-2022, 08-2022

- Conducted an "Intro to Github" workshop

ABC Lab

Singapore Management University

RESEARCH ASSISTANT

05-2021, 10-2021

- Screen older adults for neurocognitive deficits using assessment tools

Fernvale Garden School

Movement for the Intellectually

Disabled

SPECIAL EDUCATION TEACHER

08-2020, 05-2021

- Taught students (7 - 18 year olds) with moderate to severe neurodevelopmental and behavioural disorders a range of subjects (English, Math etc.,) as well as basic living skills
- Teach students different coping mechanisms to manage behavioural disorders and facilitate behaviour management workshops
- Provide regular assessment of living skills, educational progress and behavioural management for children
- Formulate individualized education plans and treatment and intervention plans regularly
- Provide basic assessment of children's behavioural needs as well as educational progress
- Support students' learning using a range of different teaching strategies and handmade as well as self-sourced IT resources

Childrens Partnership Pte Ltd

Singapore

INTERN

06-2019, 08-2019

- Shadow principal psychologist and assist during intervention sessions
- Provide brief case reports based on clinical observations
- Engage and teach children in special needs teaching programmes
- Organize social and special needs educational programs to facilitate learning for children
- Facilitate social skills training and behavioural interventions

Education

- Bachelor of Social Sciences with Honors (Highest Distinction) in Psychology
- Honors Thesis: What Happens After we Choose to Eat the Forbidden Fruit - Effects of Indulgence Autonomy on Post-Temptation Motivation

Publications

- Makowski, D., **Te, A.**, Pham, T., Lau, Z., & Chen, S. A. (2022, June 1). The Structure of Chaos: An Empirical Comparison of Fractal Physiology Complexity Indices using NeuroKit2. <https://doi.org/10.31234/osf.io/v5tqw>
- Makowski, D., **Te, A.**, Kirk, S., Liang, N. Z., & Chen, S. A. (2022, October 26). The Illusion Game: A Novel Experimental Paradigm Provides Evidence for a General Factor of Visual Illusion Sensitivity and Personality Correlates. (under review). <https://doi.org/10.31234/osf.io/9p5x5>

Conferences & Presentations

EEG Complexity as a Marker of Spontaneous Lies

Organization for Human Brain
Mapping (OHBM)
07, 2023

Neurokit2: An open-source Python software to analyse physiological data

Organization for Human Brain
Mapping (OHBM)
07, 2023

Fractal dimension of EEG activity is linked to distinct facets of resting-state cognition

Organization for Human Brain
Mapping (OHBM)
06, 2022

A Closer Look at Cardiac Contraction and the Effect of Cardiac Timing on Cognitive Control

Organization for Human Brain
Mapping (OHBM)
06, 2022

Awards & Distinctions

2020	Deans List	National University of Singapore
2019	Wan Boo Sow Chinese Studeies (GE)	National University of Singapore
2019	Deans List	National University of Singapore

Volunteer work

2022-Current	Regular volunteer (IMHope)	Institute of Mental Health
2019	Overseas volunteer (Project Sangkhem)	Cambodia
2019	Intern	Children's Partnership Pte Ltd (Singapore)

Skills

TECHNICAL SKILLS

Coding Languages

R – Python – SPSS

Software

RStudio – jsPsych

Other

Git – Markdown
