Biography

My research interests lie in emotion regulation, particularly in its association with interoception and personality traits. I am also interested in investigating the underpinnings of psychotic and mood disorders, as well as the role of parent-child attachments on children's behaviours.

Research Experience

Clinical Brain Lab

Nanyang Technological University

RESEARCH ASSISTANT

10-2021, 08-2023

- Develop and conduct online cognitive behavioural tasks and surveys (using jsPsych etc.)
- Perform EEG, physiological and behavioural data collection, preprocessing and data analysis
- Coordinate data collection and cognitive training sessions
- Assist in the preparation and writing of scientific presentations, manuscripts, abstracts and publications
- Manage and maintain project records
- Coordinate project meetings and facilitate communication among project personnel
- Develop and maintain project operational procedures, training materials and documents
- Train and mentor other research assistants and student assistants

ABC Lab

Singapore Management University

RESEARCH ASSISTANT

05-2021, 10-2021

- Recruit subjects on and off campus
- Develop and conduct surveys and cognitive behavioural tasks
- Summarize research findings and preprocess data
- Assisting in the preparation and writing of scientific presentations, abstracts, manuscripts and publications
- Train and mentor other research assistants and student assistants

Clinical/Teaching Experience

Clinical and Health Psychology Centre

National University of Singapore

CLINICAL PSYCHOLOGY INTERN

01-2024, 06-2024

- Conduct intervention and neuropsychological assessments for both adults and children

Clinical Brain Lab

Nanyang Technological University

RESEARCH ASSISTANT

08-2022, 08-2022

- Conducted an "Intro to Github" workshop

ABC Lab

Singapore Management University

RESEARCH ASSISTANT

05-2021, 10-2021

- Screen older adults for neurocognitive deficits using assessment tools

Fernvale Garden School

Movement for the Intellectually

Disabled

SPECIAL EDUCATION TEACHER

08-2020, 05-2021

- Taught students (7 - 18 year olds) with moderate to severe neurodevelopmental and behavioural disorders a range of subjects (English, Math etc.) as well as basic living skills
- Teach students different coping mechanisms to manage behavioural disorders and facilitate behaviour management workshops
- Provide regular assessment of living skills, educational progress and behavioural management for children
- Formulate individualized education plans and treatment and intervention plans regularly
- Provide basic assessment of children's behavioural needs as well as educational progress
- Support students' learning using a range of different teaching strategies and resources

Childrens Partnership Pte Ltd

Singapore

INTERN

06-2019, 08-2019

- Shadow principal psychologist and assist during intervention sessions
- Provide brief case reports based on clinical observations
- Engage and teach children in special needs teaching programmes
- Organize social and special needs educational programs to facilitate learning for children
- Facilitate social skills training and behavioural interventions

Education

National University of Singapore

DEPARTMENT OF PSYCHOLOGY

- Master of Psychology (Clinical)

Singapore

2023 - 2025

National University of Singapore

DEPARTMENT OF PSYCHOLOGY

- Bachelor of Social Sciences with Honors (Highest Distinction) in Psychology
- Honors Thesis: What Happens After we Choose to Eat the Forbidden Fruit - Effects of Indulgence Autonomy on Post-Temptation Motivation

Singapore

2016 - 2020
